

# COMA\_54

Coma\_54 are a Berlin based alternative rock band from Ireland. Their unique sound can be described as a dirty, trip hop style landscape fused with an altogether nineties grunge like feel. Born in 2017, this band are new to Berlin's music scene, which gives the outfit a very tangible raw energy from both their music and early live performances to date. When you stand in the crowd at a Coma\_54 gig you are immediately struck by the sensation that this is the beginning of something extra special. A band like this does not come along very often, but when they do, you better take notice.
